Report from the Investment Manager

During the year ending 31st of December 2023, the EUR unit class (IC1, EUR) increased by 7.9 percent, the SEK unit class (RC1, SEK) increased by 6.1 percent and the USD unit class (IC1, USD) increased by 11.6 percent.

The fund aims to hold approximately one-third each of small, medium and large-cap healthcare companies over time. This strategy aims to achieve a balanced and diversified portfolio despite the focus on one specific industry. Diversification is also achieved through exposure to several different subsectors within the healthcare sphere: pharmaceuticals, biotechnology, medical technology and healthcare services.

As a whole, 2023 turned out to be a significantly better stock market year than most had anticipated at the beginning of the year. Even though, to a large degree, the overall performance rested on the so called Magnificent Seven (i.e. Apple, Microsoft, Alphabet, Amazon, Meta Platforms, Tesla and Nvidia) market breadth improved successively towards the end of the year. Inflation started to fall during second half of 2023 after reaching forty-year highs during 2022. At the end of 2023, the yield on the US 10-year government bonds stood at the same level as at the beginning of 2023 and some 120 basis points lower than at the peak in October. Investors started penciling in several interest rate cuts both in the US and in Europe.

The fund's best performing holding during the year was the US biotechnology company Immunogen. The company has a breakthrough treatment for ovarian cancer called Elahere. Elahere has showed an overall survival benefit of 33 percent compared to standard of care in heavily pre-treated patients with platinum refractory ovarian cancer. Uptake for the drug has steadily increased since launch and, in November 2023, pharmaceutical company AbbVie announced the acquisition of Immunogen for a 100 percent premium.

Pharmaceutical company Eli Lilly was the fund's next best contributor during the year. During 2023 the company had several data readouts for weight-loss drugs with stunning results. Obesity is linked to many chronic diseases and there has historically existed little to no effective drugs against obesity. Eli Lilly is one of the leaders within the GLP-1 obesity drug class.

The fund's worst performing holding was US biotech company Harmony Biosciences. The company's lead asset Wakix (pitolisant) is indicated for narcolepsy. A negative phase 3 trial studying pitolisant in an adjacent indication, idiopathic hypersomnia, has limited the full market potential of the drug.

The second worst performer was US biotech company Jazz Pharmaceuticals. The company is also active in narcolepsy with its products Xyrem and Xyway. The aforementioned competing orexin drug class has had similar negative impact for Jazz. Furthermore, an ongoing patent litigation with the FDA regarding Xyrem and Xyway has created uncertainty around uptake and presented a challenge for the company.

There are prospects for 2024 to be a strong year for the healthcare sector despite the high level of geopolitical uncertainty and numerous elections around the world. If 2024 turns out to be a good stock market year for healthcare, it may well be that we may see the strongest developments at the end of the year.

Optimism is growing that healthcare and pharmaceuticals will not be the subject of new major reforms in the US in the coming years. Rate cuts should benefit the sector on a broad basis; large companies should then enjoy higher valuations in the form of P/E expansion and small companies could once again look forward to better conditions for capital raising through new issues and IPOs. Lower interest rates should provide better conditions for acquisitions, which benefit both the purchasing companies and the potential acquisition targets.

Report from the Investment Manager (continued)

We do, however, continue to aim for a balanced level of risk taking on or around current levels. Even though th
smaller companies seem set to enjoy improved conditions, we believe that it is still reasonable to have diversifie
portfolio with the emphasis on large and medium-sized companies. We live in a troubled world where inflatio
could suddenly take off in a series of geopolitical entanglements. Fears might then reappear that future interest
rate cuts in the US could be delayed.

Audit report

To the Unitholders of Rhenman & Partners Fund

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Rhenman & Partners Fund (the "Fund") as at 31 December 2023, and of the results of its operations and changes in its net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund's financial statements comprise:

- the statement of net assets as at 31 December 2023;
- the statement of operations for the year then ended;
- the statement of changes in net assets for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Management Company is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Management Company for the financial statements

The Board of Directors of the Management Company is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Management Company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Management Company is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Management Company either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
 evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
 a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
 involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
 control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Management Company;

- conclude on the appropriateness of the Board of Directors of the Management Company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the
 disclosures, and whether the financial statements represent the underlying transactions and events
 in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to the financial statements

as at 31st December 2023

Note 1 - General information

Rhenman & Partners Fund (the "Fund") is an open-ended mutual investment fund set up under the laws of the Grand Duchy of Luxembourg as a "Fonds Commun de Placement" ("FCP") registered pursuant to Part II of the amended Law of 17th December 2010 (the "2010 Law") relating to Undertakings for Collective Investment and qualifies as an Alternative Investment Fund ("AIF") in accordance with the law of 12th July 2013 (the "2013 Law") on Alternative Investment Fund Managers.

The financial year of the Fund ends on 31st December.

The financial statements of the Fund are expressed in EUR and correspond to the financial statements of the sole Sub-Fund open.

The Net Asset Value per unit of the Sub-Fund is calculated monthly as of the last Business Day of each month in Luxembourg ("Valuation Day"), under the overall responsibility of the AIFM.

The Net Asset Value per unit of each class, subscription and redemption prices in the Sub-Fund are available at the registered office of the AIFM.

Financial reports of the Fund are published annually and semi-annually. These reports, as well as the sales prospectus and other information concerning the Fund are available at the registered office of the Management Company, the Global Distributor or its Agents (if any) and the Depositary.

Note 2 - Significant accounting policies

a) Presentation of the financial statements

The financial statements of the Fund are prepared in accordance with the Luxembourg legal and regulatory requirements concerning Undertakings for Collective Investment and with generally accepted accounting principles in Luxembourg. The financial statements follow the presentation as defined by Article 104 of the Commission Delegated Regulation (EU) N° 231/2013.

The financial statements of the Fund have been prepared on a going concern basis.

b) Valuation

- 1) The value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.
- 2) The value of assets, which are listed or dealt in on any stock exchange, is based on the last available price of the last business day on the stock exchange, which is normally the principal market for such assets.
- 3) The value of assets dealt in on any other regulated market which is recognised, operating regularly and open to the public (a "Regulated Market") is based on the closing price of the last business day.
- 4) In the event that any assets are not listed or dealt in on any stock exchange or on any other Regulated Market, or if, with respect to assets listed or dealt in on any stock exchange, or other Regulated Market as aforesaid, the price as determined pursuant to sub-paragraph (2) or (3) is not representative of the fair market value of the relevant assets, the value of such assets will be based on the reasonably foreseeable sales price determined prudently and in good faith by the Board of Directors of the AIFM.
- 5) The liquidating value of options contracts not traded on exchanges or on other Regulated Markets is their net liquidating value determined, pursuant to the policies established by the AIFM, on a basis consistently

Notes to the financial statements (continued)

as at 31st December 2023

applied for each different variety of contracts. The liquidating value of futures, forward or options contracts traded on exchanges or on other Regulated Markets are based upon the closing prices of these contracts on the last business day on exchanges and Regulated Markets on which the particular futures, forward or options contracts are traded by the Fund; provided that if a futures, forward or options contract could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract shall be such value as the Board of Directors of the AIFM may deem fair and reasonable.

- 6) Units or shares of open-ended underlying funds are valued at their last determined and available Net Asset Value or, if such price is not representative of the fair market value of such assets, then the price shall be determined by the Board of Directors of the AIFM on a fair and equitable basis and in good faith. Exchange Traded Funds ("ETFs") are priced as assets listed or dealt in on any stock exchange.
- 7) All other securities and other assets are valued at fair market value as determined in good faith pursuant to the procedures established by the AIFM.

c) Acquisition cost of securities

The acquisition cost of a security denominated in a currency other than that of the Sub-Fund is converted to the Sub-Fund's currency at the exchange rate prevailing on the date of purchase.

d) Net realised gain/(loss) on securities portfolio

The net realised gain/(loss) on securities portfolio is determined on the basis of the average cost of securities sold.

e) Investment income

Dividend income is recognised on an ex-dividend basis and is recorded net of withholding tax.

Interest income is accrued on a pro rata temporis basis, net of any withholding tax.

f) Formation expenses

Expenses incurred in connection with the establishment of the Fund and the creation of the Sub-Fund are amortised over a period of five years. Formation expenses were fully amortised on a straight line basis over a period of five years.

g) Exchange translation

Bank balances, other assets and liabilities and the value of securities held that are denominated in other currencies than the Sub-Fund's currency are converted at the prevailing exchange rate of the closing day. Income and expenses incurred in currencies other than the Sub-Fund's currency are converted at the prevailing exchange rate of the day of each transaction.

At the date of the financial statements, the prevailing exchange rates on the closing day were as follows:

1	EUR	=	1.6188627	AUD	Australian Dollar
			0.9296445	CHF	Swiss Franc
			7.4543871	DKK	Danish Krona
			0.8663137	GBP	Pound Sterling
			155.7912512	JPY	Japanese Yen
			11.2168157	NOK	Norwegian Krona
			11.1283413	SEK	Swedish Krona
			1 1045500	USD	US Dollar

Notes to the financial statements (continued)

as at 31st December 2023

h) Short sales

When a Sub-Fund engages in a short sale, an amount equal to the proceeds received by the Sub-Fund is reflected as an asset and equivalent liability. The amount of the liability is subsequently marked to market to reflect the market value of the short sale. The Sub-Fund is exposed to the risk of depreciation to the extent that the market value of the security sold short exceeds the proceeds of the short sales.

Securities sold short are borrowed from the prime broker.

i) Transaction fees

Transaction costs disclosed under the item "Transaction fees" in the expenses of the statement of operations are mainly composed of broker fees incurred by the Fund and of fees relating to transactions paid to the Depositary and of fees relating to transactions paid to the depositary as well as of transaction fees on financial instruments and derivatives.

Note 3 - Central administration costs

Central administration fees are disclosed in the item "Central administration costs" in the statement of operations.

Note 4 - Depositary fees

The Depositary fees are disclosed in the item "Depositary fees" in the statement of operations. This item includes also the Supervisor fees.

Note 5 - Dilution Levy

Under certain circumstances (for example, large volumes of deals) investment and/or disinvestment costs may have an adverse effect on the unitholder's interest in the Sub-Fund. In order to prevent this effect, called "dilution", the Management Company has the power to charge a "dilution levy" on the issue, redemption and/or conversion of units of the Sub-Fund. If charged, the dilution levy will be paid into the Sub-Fund.

The dilution levy will be calculated by reference to the costs of dealing in the underlying investments of the Sub-Fund, including any dealing spreads, commission and transfer taxes.

The need to charge a dilution levy will depend on the volume of issues, redemptions or conversions. The Management Company may charge a discretionary dilution levy on the issues, redemptions and conversions of units, if in its opinion, the existing Unitholders (for issues) or remaining Unitholders (for redemptions) might otherwise be adversely affected.

In any case, the dilution levy shall not exceed 2% of the Net Asset Value per Unit.

Note 6 - Management fees

The AIFM is entitled to receive out of the Sub-Fund's assets a management fee of 0.075% p.a., consisting of an infrastructure fee (0.025% p.a. with a maximum of EUR 75.000 p.a.) and the AIFM fee (0.05% p.a.).

The Portfolio Manager receives out of the Sub-Fund's assets an annual portfolio management services fees, calculated for each Valuation Day, consisting of (a) the investment management fee paid out monthly of:

- 2.00% p.a. for the classes RC1 (EUR), RC1 (SEK),
- 1.50% p.a. for the classes RC2 (SEK), IC1 (EUR), IC1 (USD), ID1 (SEK),
- 0.75% p.a. for the classes IC3 (EUR),
- 1.00% p.a. for the classes IC2 (SEK), IC2 (USD) and RC2 (USD),

Notes to the financial statements (continued)

as at 31st December 2023

• 0.75% p.a. for the classes IC4 (EUR).

and of (b) the research fee of maximum 0.30% p.a. paid out quarterly in arrears.

Note 7 - Performance fees

The Portfolio Manager is also entitled to receive a performance fee, payable out of the Sub-Fund's assets.

Calculation of the performance fee for all classes except for Class IC4 (EUR)

The performance fee is calculated and accrued monthly in the respective unit classes as described below and is paid out quarterly in arrears. The first period ended on 30th June 2009 and being followed by each successive quarter thereafter (the "Calculation Period").

For each Calculation Period, the performance fee in respect of each unit is equal to 20% of the appreciation in the Gross Asset Value per each Unit of that class during the Calculation Period above the Base Net Asset Value per each Unit of that class. For Class D Units the Gross Net Asset Value (GNAV) used for the calculation of the Performance Fee will be adjusted by any dividend distributions made during the relevant Calculation Period.

The Gross Net Asset Value is calculated after the accrual of all fees but prior to the accrual of any Performance Fee on the relevant Valuation Day.

The Base Net Asset Value per each Unit is the greater of the Net Asset Value of that Unit at the time of issue of that Unit Class multiplied by the 3 months EURO Interbank Offered Rate on the last business day of the previous calculation period adjusted for monthly return and the highest Gross Net Asset Value of that Unit achieved as of the end of any previous Calculation Period (if any) during which such Unit was in issue multiplied by the 3 months EURO Interbank Offered Rate for the relevant calculation period adjusted for monthly return. The calculation cannot be based on a negative EURO Interbank Offered Rate.

For the Class IC2 Units, certain adjustments will be made to reduce inequities that would occur for investors subscribing for Units at a time when the Net Asset Value per Unit is other than the Peak Net Asset Value per Unit (Equalisation).

For Class IC4 (EUR)

For Class IC4 (EUR) Units, the performance fee is calculated and accrued monthly and is paid out annually in arrears. The Calculation Period will start on 1st January and end on 31st December each year. For each Calculation Period, the performance fee in respect of each unit is equal to 10%.

The Portfolio Manager shall be entitled to a Performance Fee if the Sub-Fund produces an excess performance, defined as any positive difference between the performance of the current Gross Net Asset Value (GNAV) per Unit and the Base Net Asset Value per Unit for the same calculation period. If the difference is negative, excess performance is defined to be zero, and in such case the Portfolio Manager is not entitled to a Performance Fee and the negative performance at the end of any Calculation Period will not be carried forward to the next Calculation Periods. A Performance Fee will only be paid if the excess performance is above a 5% annual hurdle rate and if that is the case the Performance Fee will be calculated on the entire difference between the GNAV and the Base Net Asset Value.

The GNAV is calculated after the accrual of all fees but prior to the accrual of any Performance Fee on the relevant Valuation Day.

The Base Net Asset Value per each Unit is equal to the Net Asset Value of that Unit at the end of the previous Calculation Period.

In the case of Units redeemed during a Calculation Period, the accrued Performance Fee in respect of those Units shall be crystallized and subsequently paid to the Portfolio Manager at the end of the Calculation Period.

Note 8 - Subscription duty ("taxe d'abonnement")

The Fund is governed by Luxembourg law.

Pursuant to the legislation and regulations in force, the Fund is subject to an annual subscription duty ("taxe d'abonnement") of 0.05% which is payable quarterly and calculated on the basis of the net assets of each Sub-Fund on the last day of each quarter.

Pursuant to Article 175 (a) of the amended law of 17th December 2010 the net assets invested in Undertakings for Collective Investment already subject to the "taxe d'abonnement" are exempt from this tax.

The rate of this tax may be reduced to 0.01% of the value of the net assets for Sub-Fund or classes of units reserved to institutional investors (Class I units).

Note 9 - Pledged assets

At the date of the financial statements, the following securities serve as pledged assets in relation to collateralized debt at banks, short sales and security borrowing operations. The counterparty of the following positions is Skandinaviska Enskilda Banken AB (publ), Stockholm.

1 - Risk management disclosure

1.1. Risk Profile

The current risk profile of the Sub-Fund has been reviewed during the reporting period without material changes. The AIFM/Management Company monitors the overall risk profile of the Fund, including market, liquidity, counterparty as well as the level of the leverage.

No limits as set by the Board of Directors of the AIFM/Management Company as part of the risk profile have been exceeded or are likely to be exceeded by the Sub-Fund.

1.2. Risk Management systems

The risk monitoring is based on the risk management process adopted by the Board of Directors of the AIFM/Management Company and is performed independently from the portfolio management. No changes have been applied to the risk management procedures.

1.3. Leverage

In accordance with the Law of 12th July 2013 (the "2013 Law"), the maximum level of leverage which the AIFM is entitled to employ on behalf of Rhenman & Partners Fund is 300% in accordance with the commitment method and 400% in accordance with the gross method of the total assets.

The AIFM calculates the leverage on a gross and on a commitment method in accordance with Article 7 and Article 8 of the Commission Delegated Regulation EU/231/2013 (the "AIFM Regulation") on a monthly basis. The gross method converts all positions on derivative financial instruments into equivalent positions in the underlying assets, while the commitment method applies the same while allowing netting and hedging arrangements.

The level of leverage during the reporting period is disclosed below:

Sub-Fund	Internal Leverage -limit	Gross Method Leverage			
Rhenman &		Minimum	Average	Maximum	As at 31st December 2023
Partners Fund -	400% Gross	125.56%	135.12%	144.90%	129.62%
