What is this product?

Type

Investment Fund (F.C.P.), Luxembourg.

Term

The Fund has no maturity date. However, the management company may decide to close the Fund under certain circumstances.

Objectives

The Fund's objective is to create value for its investors, in the form of total return, with a focus on investments in the health sector. The Fund aims to perform better than traditional equity funds by both buying and short selling shares. Total return is achieved by investing in a global equity portfolio with a focus on health, equity derivatives, derivatives on equity indices, convertible bonds and exchange traded funds and other equity related derivative instruments, including swaps.

The Fund is not a UCITS and is comparable to a Swedish Special Fund (Specialfond). Fundamental analysis of the selected companies is used to select the investments, ie analysis of their business strategy, financial status and future projections. In addition, advice from experts in medical research may be sought as part of the decision making process. The Fund's portfolio of stocks is traded frequently as an integral part of the Fund's investment strategy.

The Fund may invest in money market instruments and other financial instruments for long periods and may invest up to 100% of its value in such instruments. The Fund may enter into currency derivative contracts to reduce its exposure to currency fluctuations. The Fund may not invest more than 10% of its assets in other funds. The Fund's leverage, i.e. borrowing and derivatives exposure, may not exceed a total of 300% of the NAV.

Benchmark: The Fund is managed with reference to the EURIBOR 3M (the "Benchmark") for the purpose of performance fee calculation only.

Intended retail investor

This product is suitable for investors who may have basic or no

knowledge and experience of investing in financial markets and also experienced investors. Investors must be prepared to accept volatility and potential capital losses and may therefore be inappropriate for investors who plan to withdraw their money within five years.

Other information

Depository: Skandinaviska Enskilda Banken. AB (publ) – Luxembourg Branch

Redemption policy: The Fund is open for redemptions on a monthly basis. Redemption requests must be placed no later than 12 noon Luxembourg time, three bank business days prior to the Valuation Day. Payment will be made within 5 business days from the relevant Valuation Day. In exceptional circumstances, redemptions may be limited or adjusted as set out in the Prospectus.

Distribution policy: This class is a capitalisation class meaning that income is reinvested.

Exchange policy: The investor has the right to convert his investment in units in one sub-fund for units in the same sub-fund or in another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

Asset segregation: The assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds.

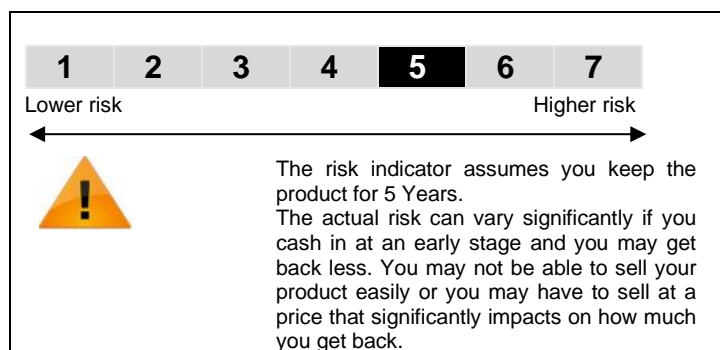

Further information: The latest prospectus, annual and semi-annual reports, and KIDs are available free of charge in English at the registered office of ONE Fund Management S.A. or at www.one-gs.com. The net asset value per Unit is available at the registered office of ONE Fund Management S.A.

This sub-fund was launched in 2009 and this unit class in 2009.

The reference currency of the Fund is expressed in EUR. The currency of the unit class is expressed in EUR.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product

compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the capacity to pay you.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator: Credit risk, derivatives risk, liquidity risk, political risk, operational risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

Recommended holding period Example Investment		5 years EUR 10 000	
Scenarios		If you exit after 1 Year	If you exit after 5 years (recommended holding period)

Favourable	What you might get back after costs Average return each year	16 150 EUR 61.5 %	27 450 EUR 22.4 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently

in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred when investing between 08/2024 and 03/2026.

Moderate scenario: This type of scenario occurred when investing between 01/2019 and 01/2024.

Favourable scenario: This type of scenario occurred when investing between 03/2016 and 03/2021.

What happens if One Fund Management SA is unable to pay out?

The Management Company is responsible for administration and management of the Fund, and does not typically hold assets of the Fund (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). The Management Company, as the PRIIPS manufacturer has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Fund or the depositary is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any, of this loss.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- EUR 10 000 is invested

Example Investment 10 000 EUR		
Scenarios	If you exit after 1 Year	If you exit after 5 years (recommended holding period)
Total Costs	364 EUR	2 608 EUR
Annual Cost impact (*)	3.6%	4.2% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 16.9 % before costs and 12.7 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount. These figures include the maximum distribution fee that the person selling you the product may charge (0.0% of amount invested / 0 EUR). This person will inform you of the actual distribution fee.
